

## DM2 Software's *Petroleum Insights* Web Portal powered by websitepipeline™

### DM2's Web Portal Features:

- **Daily Customer/Dealer Fuel Pricing**
- **Dealer EFT Notification Look-ups**
- **Dealer Credit Card Batch Access**
- **Sales Order History**
- **Open Invoice Look-ups**
- **Invoice History Look-ups**
- **Account Information Look-ups/Updates**
- **Open Invoice Payment Option**

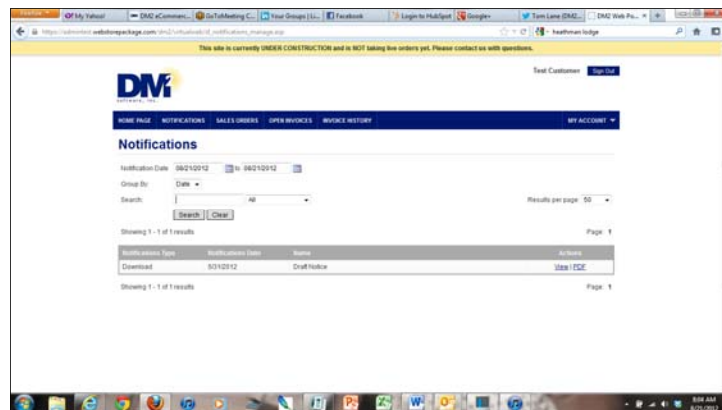

Spending too much time responding to your customers' and dealers' requests to provide them with pricing, credit card batch and account information as well as copies of EFT notifications, sales orders and invoices? By adding DM2 Software's WebLink Interface and websitepipeline's Web Portal to your *Petroleum Insights* accounting/ERP system and website, your customers and dealers will have secure, self-service access to this information 24 hours a day, 7 days a week from any web-enabled device. This solution provides real-time data synching between your website and your system, without the need for additional hardware, upgrading your internet connection or adding additional bandwidth.

DM2's WebLink Interface and websitepipeline's Web Portal is a comprehensive solution that offers bi-directional integration with your *Petroleum Insights* system and your website to enable your customers and dealers to login to view and print:

- Daily Customer/Dealer Fuel Pricing
- Dealer EFT Notifications
- Dealer Credit Card Batch Access
- Sales Order History
- Open Invoices
- Invoice History
- Account Information

You can also provide your customers with the convenience of paying their open invoices online by adding websitepipeline's Online Invoice Payment with Real-time Credit Card Processing option.

Free up your employees to grow your business while providing your customers and dealers with the convenience of accessing their information anytime, anywhere from any web-enabled device with DM2's WebLink Interface and websitepipeline's Web Portal option.

# DM2 Software's Web Portal powered by websitepipeline™

---

## ABOUT websitepipeline™

Like DM2, websitepipeline is a Sage Development Partner. In addition to hosting DM2's new Web Portal, websitepipeline designs, builds, hosts and supports custom websites. Since 1999, websitepipeline has developed hundreds of website modules with a wide variety of functionality—from shopping carts and product catalogs to on-site marketing tools and more—all designed to meet your business needs and make it easy for your customers to place orders and access information.

With websitepipeline's Rapid Deployment program, your DM2 Web Portal can be up and running in as little as 30 days. Once your DM2 Web Portal installation has been completed you can work with websitepipeline to easily add functionality from the 800 plus optional modules they have to offer.

For information on DM2 Software products and services, e-mail, [sales@dm2.com](mailto:sales@dm2.com), call (800) 866-5151, or visit the DM2 Software website at [www.dm2.com](http://www.dm2.com).

DM2 Software, Inc., is the designer and publisher of the module described herein. Sage Software, the Sage Software logos, and the Sage Software product and service names mentioned herein are registered trademarks or trademarks of Sage Software, Inc., or its affiliated entities.
